

ABDULWAHEED RASHEED AYOMIDE

MERN STACK / FULL-STACK DEVELOPER

ayomiderasheed226@gmail.com • 08088368437 • [LinkedIn](#) • [GitHub](#) • [Portfolio](#)

PROFESSIONAL SUMMARY

Versatile Full-Stack JavaScript Developer with comprehensive hands-on experience building end-to-end web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js). Skilled in engineering dynamic front-end UIs with React and Tailwind CSS, while architecting secure backend RESTful APIs, JWT authentication, and MongoDB databases. Combines strong client-side design capabilities with server-side logic and deployment workflows to build reliable, full-lifecycle web applications.

TECHNICAL SKILLS

Frontend (Client-Side):	React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, State Management, Responsive Web Design
Backend (Server-Side):	Node.js, Express.js, RESTful APIs, Middleware, JWT Authentication, Resend API Integration
Databases & Cloud:	MongoDB, Mongoose ORM, Firebase Auth, Firestore, Basics of SQL (MySQL)
Tools & Version Control:	Git, GitHub, Postman, Vercel, NPM, VS Code, Figma, Chrome DevTools, AI Development Tools

FULL-STACK & MERN PROJECTS

Spring Financial Bank — MERN Stack Application

[Repository](#)

Technologies: React.js, Node.js, Express.js, MongoDB, Mongoose, JWT, Resend API

- Developed a complete full-stack web application featuring user registration, auth protection, dashboard views, and admin modules.
- Constructed secure Node/Express backend endpoints with MongoDB schema validation and JWT authentication guards.
- Connected frontend state interfaces to custom REST APIs, maintaining reliable data sync and token storage across client sessions.
- Integrated transactional email services (Resend API) and executed production build deployments and debugging on cloud platforms.

Molasses Shop — React E-Commerce Application

[Live Demo](#)

Technologies: React.js, Tailwind CSS, JavaScript, Vercel Deployment

- Designed and built a modular front-end shopping application featuring product browsing, detail popups, dynamic cart, and responsive layout.
- Streamlined order dispatching by structuring client-side order summaries directly to WhatsApp contact flows.

PrimeLane E-Commerce Platform

[Repository](#)

Technologies: JavaScript, Tailwind CSS, Firebase (Auth & Firestore)

- Built an interactive web platform utilizing Firebase serverless authentication and Firestore database operations.
- Implemented real-time client state updates for shopping items, cart totals, and authenticated user profiles.

Adeshina Plumbing Web Interface

[Repository](#)

Technologies: HTML5, Tailwind CSS, JavaScript

- Engineered a fully responsive commercial website featuring service displays, work showcase components, and localized contact options.

EDUCATION & PROFESSIONAL DEVELOPMENT

SQL College of ICT

Aug 2025 – Graduated

Professional Diploma in Software Engineering

- Completed formal software engineering diploma program covering front-to-back development, algorithms, and software testing.
- Continuously refining full-stack development patterns, SQL database fundamentals, and AI-driven development workflows.
